AIR TRAFFIC TECHNOLOGY INTERNATIONAL 2022

THE INTERNATIONAL REVIEW OF AIR TRAFFIC TECHNOLOGY AND MANAGEMENT

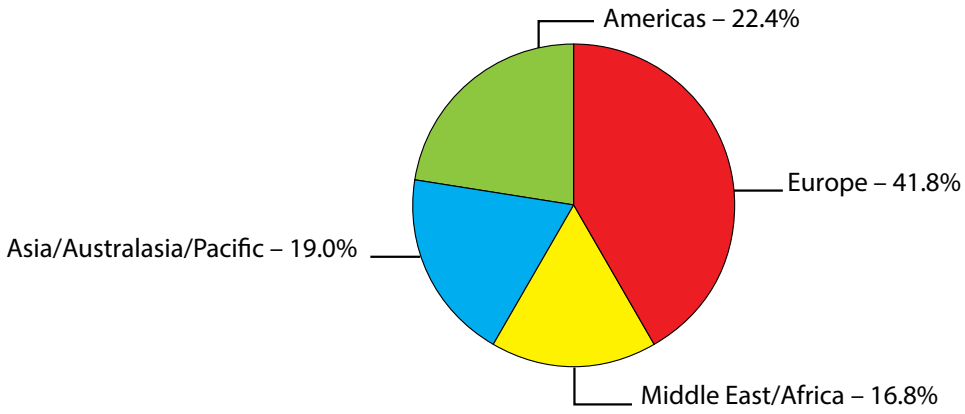
Circulation and readership

Air Traffic Technology International is respected as the industry's leading review for the comprehensive exchange of the latest ideas and information. It is the established showcase for the latest and most innovative ATC/ATM technologies, products, services, simulation and training.

Advertisers benefit from exposure to the most senior decision makers and decision influencers in airport authorities, ANSP's, government offices, manufacturers, contractors & integrators in 144 countries. They include:

- Managing directors/CEOs of airport authorities
- Senior air traffic controllers
- Senior engineers
- Operational managers
- Architects

Distribution



Each issue also benefits from additional distribution at major industry exhibitions and conferences around the world. ***Air Traffic Technology International*** has official media partner status at World ATM Congress Madrid, ATCA and ATC Forum.

Air Traffic Technology International International is published annually and is delivered to over 7,250 international recipients, with all copies being distributed on an individually named basis.
